Young Man—"So Miss Ethel is is your oldest sister? Who comes after her?"

Small Brother—"Nobody ain't come yet; but pa says the first fellow that comes can have her."

Homestead Entries.

The rule of approximation has not been invariably enforced, and where a showing is made that the enforcement of the rule would work a hardship upon the entryman and the equities of the particular case warrant it the Department has allowed an entry for more than 160 acres to stand.

COLD WAVE.

A cold wave struck the Plains Wednesday morning, sleet rain and snow have followed and the weather has been very rough since that time. The moisture is doing much good but stock is suffering.

The winter is beginning early this year and with more moisture than usual. It is hoped the rain and snow will continue during the winter and give us a good crop year.

TRAIN LEFT TRACK.

The north bound passenger train jumped the track near Lake Arthur last Sunday morning, but no one was injured nor did the train leave the ties.

A soft track caused the accident but fortunately the engine remained on the rails while the coaches ran along the ties for some distance before the train could be stopped. The ties were torn up and track had to be repaired, necessitating a transfer Sunday evening.
—Advocate.

That better than any I have ever seen. The corn is doing well. The weather is just what the corn needs. The corn is doing well. The weather is just what the corn needs. The corn is doing well. The weather is just what the corn needs.

Good corn has been grown on the Burdette place—not good fodder but good. On W. J. Hamilton's place the corn is so far well made. W. J. Schroeder who has charge of the place, hesitates to tell that story for he knows people will believe it. But he has scales to back up his statement and he has witnesses who saw him weigh it.

He had just one-fifth of an acre in one corner of his farm. It was of the bloody butcher variety and not only were the stalks from tip to twelve feet high but the ears were just as good as were ever grown in Illinois. The corn was gathered and weighed, and off of the one-fifth of an acre Mr. Schroeder gathered 31 1-2 bushels which is 157 bushels to the acre.
